DISCLOSURE OF DANGER

RIDING THE FLOWRIDER® IS AN EXTREME SPORT AND A HIGH RISK RECREATIONAL ACTIVITY. SHEET WAVE SURFING ON OR IN CLOSE PROXIMITY TO THE FLOWRIDER® MAY RESULT IN SERIOUS PHYSICAL OR MENTAL INJURY, ILLNESS, SPINAL CORD INJURY, DISEASE, OR DEATH.

Riding the FlowRider® in a standing position takes more skill, balance, and experience than riding on the body board lying down. First-time riders are strongly encouraged to experience the FlowRider® lying on the foam body boards on their stomachs until they become accustomed to the operation of the FlowRider®. The FlowRider® is not a pool. The water flow on which you will be riding is very shallow and is not more than 4 inches deep. The bottom of the FlowRider® is a hard surface. When falling from an upright position, fall to your side and not head first. Tuck your chin and protect your head and neck from serious injury.

The FlowRider® is a very aggressive white water attraction. You may unavoidably achieve body positions that result in personal injury during your participation in FlowRider® operations. The tricks, stunts or body positions that you may attempt (or inadvertently achieve) will be based upon your physical and mental abilities and skill level. There is a risk of self-inflicted injury or injury caused by others that can result from such tricks, stunts or body positions which exceed your skill level or physical conditioning (and which may occur irrespective of your skill level). For instance, you may sustain injury as a result of striking surrounding ride elements, e.g., ride bottom, entry slide, ride vehicles, containment walls, entering/exiting riders, ride attendants, or other ride components. In addition, since the attraction and its ride vehicles (flowboards/bodyboards) may contain fiberglass, plastic, wood, metal or other hard and potentially dangerous materials, contact with them may also cause injury.

You should not participate if you have pre-existing heart, spine, head, neck, muscle, or joint issues. Pregnant women should not participate. To participate, you need the physical strength, balance, conditioning, and coordination of a physically active lifestyle. This activity is risky. Although many before you have ridden unscathed, severe spinal cord injury, or death is possible.

BY SIGNING BELOW, I ACKNOWLEDGE THAT I AM FULLY AWARE OF THE AFORESAID PHYSICAL RISKS OF RIDING THE FLOWRIDER® AND THAT I HAVE READ AND UNDERSTOOD ALL THE SAFETY INSTRUCTIONS AND WARNING SIGNS CONTAINED IN THE WAIVER AND POSTED AT OR NEAR THE FLOWRIDER®.
