

# INDOOR WATERPARK

# Safety Tips for Kalahari Waterpark Guests

- **Learn to swim.** The best thing anyone can do to stay safe in and around the water is to learn to swim. This includes both adults and children.
- **No running.** Whether in a waterpark or poolside, water shoes can be worn for added traction. Water shoes are not permitted on rides in Waterparks.
- **Obey the rules.** Always read the signs in swimming areas and Waterparks for more information on rides, depths and more. If you have a question, consult the lifeguard.
- **Watch first.** Whether riding a waterslide or jumping off a diving board, always observe an attraction before enjoying it.
- **Spit it out.** To prevent choking, never chew gum or eat while swimming, diving, playing in water or riding an attraction.
- **Check depth.** Many pools and Waterparks offer a wide variety of pool depths including shallow play areas for toddlers with no appreciable water depth.
- **Identify a meeting spot.** Always identify a central meeting location, such as a first aid location, in case members of your party become separated.
- **ALWAYS follow the lifeguards’ instructions.**
- **Life vests are required for all children under 48”.** At Kalahari Resorts & Conventions, the safety and security of our guests is our number one priority. In our indoor and outdoor Waterparks, Kalahari is proud to meet, and in many cases, exceed state and federal guidelines for Waterparks safety. Although many children possess excellent swimming capabilities in standard pools, Kalahari Resorts requires all children under 48” to wear a life vest for added safety while enjoying our Waterparks. You are encouraged to bring your own life vest if it is well fitting and U.S. Coast Guard approved. Complimentary life vests are available in the Waterpark on a first come first served basis.
- **Children under the age of 14 must be accompanied by an adult.**
- **State law prohibits any food or beverage to be brought in from outside the Waterpark.**

## Attractions

	Attraction	Number of Riders	Height	Weight	Body/Mat/Tube		Attraction	Number of Riders	Height	Weight	Body/Mat/Tube
