Salt therapy, or halotherapy, is very beneficial for overall wellness by removing the toxicity from the respiratory system, improving the function and appearance of the skin, and boosting the immune system. We use a halogenerator to vaporize organic Himalayan salt into the air. This allows for the salts negatively charged ions to attach to the positively charged toxins in the body, thus neutralizing the toxins and detoxing the body from the inside out. It is natural and safe and there are no harmful side effects.

CBD may offer an option for treating different types of chronic pain. Added to your treatment the benefits of pain relief and relaxation will take your experience to a new level.

Halotherapy and Cannabidiol are not to be used as a replacement for any medication or medical treatment prescribed by a physician. It is typically used as a compliment to traditional medicine.
